> Sztuka Fabryka /

**> context /**

> Each individual of Sztuka Fabryka add his/her creativity to the creation of the Sztuka Fabryka philosophy / In this philosophy, the group not the individual is of importance / As such, you will find only a small and mixed resume about our studies //

> In 2009 Sztuka Fabryka moved to Spain after spending 20 years in organising an international event in Belgium / It was in our new home town that the Sztuka Fabryka philosophy did get its final form / In the resume we mention only our realisations from 2008 on, as since this period we were able to spend full time on our own art / None the less we have made some fine realisations earlier then 2008 //
